Brief

Skilled Audio Engineer with expertise in live production and studio recording. Delivered high-quality sound for broadcast television and live events through effective system design, mixing console operation, and real-time troubleshooting. Translated creative visions into polished recordings using advanced tracking, editing, and mixing techniques. Focused on collaboration and continuous improvement to drive outstanding audio outcomes.

Experience

PBS North Carolina Advanced Audio Specialist

Durham, North Carolina
2018 - 2022

Public Broadcasting Service North Carolina

- Designed and optimized live audio systems for broadcast, events, and theatre, developing signal flow diagrams, I/O lists, microphone placements, and venue acoustic analyses to deliver superior sound quality.
- Led audio production teams and managed front-of-house mixing, including live-to-tape productions, blending microphones, instruments, music, and effects while coordinating with stage managers, lighting, and video departments for seamless performances.
- Provided expert technical leadership through precise placement of lavalier microphones and IFBs, RF and communications management, real-time troubleshooting, and full production lifecycle oversight—including equipment maintenance, system strike, load-out, and post-event debriefs.

Alleycat Blues Productions Audio Engineer & Record Producer

Raleigh, North Carolina
2014 - 2022

Commercial Recording Studio

- Optimized recording setups by choosing microphones, managing mic placement, and overseeing signal flow and gain staging for quality, low-noise sound.
- Directed recording sessions including creation of custom monitor mixes, real-time DAW navigation for overdubs and punch-ins, and rapid technical troubleshooting to maintain momentum during performances.
- Post-production editing and refinement of multi-track sessions through noise removal, comping best takes, time alignment, pitch correction, and detailed file organization with secure backups.

Capital Primary Medicine & Nutrition Center Administrative Associate

Raleigh, North Carolina
2014 - 2022

Private Medical Practice

- Answering Multi-line Phones, Scheduling Patients, ICD-10 Coding & Filing Claims.

iHeartRadio Imaging & Branding Assistant Producer

Nashville, Tennessee
2013 - 2014

Formerly Clear Channel Communications

- Produced station audio branding elements including sweepers, liners, stingers, jingles, and bumpers to enhance on-air flow and station identity.
- Designed and created custom show openers, outros, and sound beds tailored to specific DJs and programming blocks.
- Engineered high-quality promotional audio by expertly mixing voiceovers, music beds, and sound effects while applying EQ, compression, and gating to achieve competitive loudness and clarity.

Education

Northeastern University Master's of Public Administration

2024 - 2026

Northeastern University Graduate Certificate in Nonprofit Sector, Philanthropy, & Social Change

2022 - 2024

The Art Institutes Bachelor of Arts in Audio Production

2012 - 2014
